Arua Special Economic Zone – Company Profile

1. Core Activities

Agriculture & Agro-Processing

- Cleaning, sorting, packing, and refining of groundnuts, rice, and palm oil.

Mining & Mineral Processing

- Gold refining, leveraging artisanal mining in Eastern Congo and new mining prospects in West Nile, Uganda.

Manufacturing

- Alcohol production from cassava and sugarcane ethanol.
- Confectionery (sweets, biscuits, mineral water, soft drinks).
- Aromatic soaps from palm oil, sesame, groundnut oil, and shea butter.

Commercial & Service Activities

- Hardwood timber drying and cutting for export.
- Processing of salt, sugar, and cooking oil from palm oil.
- Wheat imports for processing and distribution to Congo.
- Steel products using modern high-intensity lines.
- Hardware and building materials (gypsum, boards, resins, glue, plumbing, brass, wrought iron, smelting, foundry, CNC machining).
- Consumer goods: nails, iron sheets, toilet paper, sanitary pads, mattresses, plastics (bottles, chairs, tables, utensils, pipes).

2. Target Markets

- **Democratic Republic of Congo**
- **Central African Republic**
- **South Sudan**

These markets, with a combined population exceeding **100 million people**, are within 100 km of Arua SEZ. Current reliance on Nairobi and Kampala industries creates a competitive opportunity: Arua SEZ can deliver products **up to 20% cheaper** due to reduced transport costs and proximity to borders.

---

4. Value Proposition

- **Strategic Location:** Close to regional markets, reducing logistics costs.
- **High Turnover, Low Risk:** Essential goods with consistent demand.
- **Diversified Portfolio:** Agriculture, mining, manufacturing, and commercial services.
- **Competitive Advantage:** Local processing and repackaging ensure affordability and faster market penetration compared to imports from Kampala, Nairobi, China, and India.

---

5. Conclusion

Arua SEZ offers a unique opportunity for investors to establish high-quality, capital-intensive processing and manufacturing operations at the heart of East and Central Africa. With immediate access to over 100 million consumers, strong demand for essential goods, and supportive infrastructure, investment in Arua SEZ promises sustainable growth and competitive returns.

ARUA SEZ

A Free Economic Zone for West Nile

Unlocking Trade. Powering Industry. Creating Opportunity.

Arua SEZ is a purpose-built Free Economic Zone designed to catalyze industrial growth, cross-border trade, and sustainable employment in the West Nile region of Uganda. Strategically positioned to serve Uganda, South Sudan, and the Democratic Republic of Congo, Arua SEZ will become a gateway for regional commerce and value addition.

Why West Nile?

West Nile is one of Uganda's most strategically located regions. With proximity to multiple borders and growing regional demand, it presents untapped potential for:

- Agro-processing and value addition
- Cross-border trade and logistics
- Manufacturing and light industry
- Renewable energy solutions
- Youth employment and entrepreneurship

Arua SEZ exists to transform this potential into measurable economic growth.

Our Vision

To establish West Nile as a competitive industrial and trade hub that drives inclusive prosperity and regional integration.

Our Mission

To provide world-class infrastructure, investor incentives, and regulatory efficiency that attract responsible investment and create dignified employment for the people of West Nile.

What Arua SEZ Offers

1. Strategic Location

Positioned within reach of regional markets including:

- South Sudan
- Eastern Democratic Republic of Congo
- Central African Republic
- Northern Uganda trade corridors

2. Investor Incentives

Aligned with the framework of the Uganda Investment Authority

- Tax incentives for export-oriented enterprises
- Duty exemptions on industrial inputs
- Streamlined licensing processes
- Access to government facilitation services

3. Infrastructure Development

- Serviced industrial plots
- Reliable power and water access
- Logistics and warehousing facilities
- Secure perimeter and customs support

4. Workforce Development

- Local employment pipelines
- Technical skills partnerships
- Youth enterprise incubation

Priority Sectors

Arua SEZ will prioritize industries that build regional resilience and economic independence:

- Agro-processing (coffee, cassava, oilseeds, fruits)
- Construction materials and light manufacturing
- Renewable energy assembly
- Logistics and distribution

- Cross-border trade services

Economic Impact

Arua SEZ is projected to:

- Generate thousands of direct and indirect jobs

- Increase export earnings from West Nile

- Reduce youth unemployment

- Strengthen cross-border trade integration

- Expand the local tax base sustainably

Governance & Accountability

Arua SEZ will operate under transparent governance standards with board oversight, audit structures, and compliance aligned with national regulations and international best practices.

Partner With Us

We are seeking:

- Anchor investors

- Infrastructure development partners

- Development finance institutions

- Agro-industrial operators

- Strategic trade and logistics firms

West Nile is ready. Arua SEZ is the platform.
